## What Airline Competence Consulting is all about

As airline industry experts and specialists, our Lufthansa Systems consultants are already dealing with the issues of tomorrow. What will airline processes look like in the future? What changes are companies facing in the industry? How can airlines respond to them in time? When looking for answers to these questions, the consultants of Lufthansa Systems as **the brains of the airline industry** are the right people to ask. We help our customers to stay one step ahead of the challenges of tomorrow.

### 20 years experience in international airline IT business

- **Business scope:** Our airline skills cover the full scope of passenger airline processes
- **Coverage:** Profit from the full project life cycle from airline strategy activation to de-commission
- **Expertise:** Senior domain and methods experts to guide your projects, as well as the workforce to execute them
- **3 out of 3:** Airline knowledge, IT expertise and independent consulting experience & methods
