# Upgrade your airline financial management

SIRAX<sup>®</sup> Product Family

---

## What Finance Solutions is all about

How future-oriented is your revenue accounting? Our Finance Solutions provide a portfolio of integrated solutions enabling your airline to achieve 360° financial process coverage. As a result, you can simplify all complex processes while reducing costs and increasing efficiency and revenues at the same time – in a highly automated way.

Our SIRAX® User Community is involved in the implementation of industry changes and has a voice when it comes to product development decisions. Our SIRAX® Product Family supports you in growing your business. Together, we discuss your needs and create optimized solutions that meet your specific requirements. Be part of our community!

- Modular configuration for tailoring to individual business needs
- Real-time reporting
- Best practice including IATA and ACH compliance
- Proactively anticipates developments, e.g. NDC and ONE Order
